Approved Clean"  
Certified*

**Your Partner  
in a Healthier  
Learning  
Environment**

# It's **EASY** Being **Green**

## Why "Green"?

Going "Green" is not just an environmental issue; it's also a safety issue, especially when children are involved. By utilizing green cleaning, you help protect the health of your children and staff without harming the environment.

## Your Advantage When You're "Green"

When you partner with USA Services Group in going green, you will have access to signage designating that each of your locations is professionally cleaned and sanitized with Green Seal Certified products and is certified "Mommy Approved Clean." Parents will appreciate your concern for the health and well-being of their children and will, in turn, spread the word to other parents who might be looking for day care services.

## No More Compliance Issues

With USA Services Group's green cleaning products and services, you don't have to worry when the government regulators and corporate staff come in for their "white glove" inspections. You'll pass with flying colors.

## You Can Count on USA Services Group

USA Services Group's team of professionals will bring to your center more than five decades of combined experience in the cleaning industry. In addition, MSDS sheets are available on all products and USA Services Group's services are bonded and insured. For increased security, all USA Services Group crew members carry photo identification.

## What USA Services Group Can Do For You

With your own USA Services Group account manager, you can be assured of individual attention and exceptional service. Product training and a personalized inventory management program are available.
